Duck Creek **Clarity**

Make smarter and faster underwriting, pricing, claims, and marketing decisions

Struggling to Make Data a Strategic Asset?

For years, insurers have struggled to overcome siloed, disorganized data architectures that result in time-consuming efforts spent wrangling data, an over-reliance on intuition-based decisioning, inaccurate and infrequent reporting, models that don't deliver intended outcomes, and regulatory noncompliance. These challenges result in increased IT spend and missed business opportunities, until now.

Leverage Data to Reimagine Insurance

Duck Creek Clarity is a cloud-native data management, reporting, and analytics platform that simplifies the process of accessing, overseeing, and unifying data.

Clarity

Increase Premiums and Reduce Loss Ratios

Refocus Resources to Support Innovation

Increase Operational Efficiency

> *Data is a critical building block for insurance companies looking to unlock the true power and efficacy of advanced analytics and generative AI... Insurers need data management and analytics tools like Duck Creek Clarity that can break down data silos and provide a path toward rapidly accelerating their level of data maturity, and ultimately help insurance product management, underwriting, and claims teams make smarter decisions and deliver more differentiated customer experiences.*
